

Cross-cut travertine “Leather Brown”

Leather Brown has a darker background. The structure of the stone is very compact and the characteristic travertine pits are almost non-existent.

The colour is **light brown** but the structure of the stone is very visible. Our selection of Leather Brown travertine is ideal for wall and floor tiles, both indoors and outdoors.

- Easy to clean
- Has good shade uniformity

Consult the technical information to see the various possible combinations of formats and surface finishes that are available.
